PERSONAL PROFILE

Creative logical and outcome focused. I enjoy finding efficient and novel solutions to complex problems. Significant work experience, leading teams and working collaboratively to ensure team success. A skilled communicator who places customer needs/requirements front and centre, having secured numerous customer care excellence awards.

TECHNICAL SKILLS

Software Development: OOP, MVC, Full-Stack, Software Testing, SOLID principles.
Languages: PHP, Java, Python, HTML, CSS, Tailwind CSS.
Frameworks: Laravel.
Cloud & DevOps: CI/CD, GitHub, Linux Ubuntu, Bash/Shell Scripting, Laravel Cloud.
Data: RDBMS (MySQL), Data Quality, Data Processing and Integration.
Concepts: RESTful APIs, Object Oriented Programming, Three Layered Architecture, Front-End Development, Databases, Agentic AI.

WORK EXPERIENCE

Sep – Nov 2024 | Systems Engineer Internship | Ulster University Magee

- Developed and maintained web application functionality using Laravel, PHP, Blade and Tailwind CSS, contributing to the ongoing development of the university recruitment system.
- Improved responsive interface designs and usability, creating a more consistent and accessible experience across the application.
- Tested and debugged application functionality, resolving issues and supporting the reliable implementation of new system features.
- Collaborated within an Agile development environment using Git and GitHub, contributing code changes and working alongside the development team throughout the internship for ulster university recruitment platform.
- September 2013 - February 2018 - Lidl - Sales Assistant.
- September 2018 - September 2021 – Specsavers - Optical Assistant.
- October 2021 - Current - O’ Kanes Liquor Stores – Manager (Current).

PROJECTS

Placement Application Tracker

https://github.com/nate2293/final-year-project | Developed a Laravel web application that allows students to manage placement opportunities, track applications, monitor deadlines and store supporting evidence in one central system. The project supports progress reviews and exemption requests by giving students a clear record of their placement engagement. Built using PHP, Laravel, Blade, MySQL, Tailwind CSS, FullCalendar, DomPDF/Webklex and PHPUnit, with GitHub used for version control and Laravel Forge used for cloud deployment

API Weather Dashboard

https://github.com/nate2293/weather-app | https://github.com/nate2293/weather-app-v2
Weather App is an interactive Laravel dashboard that integrates the OpenWeather API to display current and forecast weather data. It features a responsive interface built with Mary UI and Tailwind CSS, an interactive Leaflet map, and ApexCharts for visualising temperature changes. The project demonstrates third-party API integration, JSON data handling, Laravel HTTP requests, reusable UI components, and JavaScript library integration. The second iteration is a simplified dashboard version taking inspiration from modern dashboards.

To-Do-List

https://github.com/nate2293/To-Do-List | To-Do List is a Laravel task management application that allows users to securely create and manage their own personal tasks. It supports full CRUD functionality, task completion tracking, pagination, notifications and delete confirmation. The responsive interface is built with Blade, Tailwind CSS and reusable Termon UI components, with PHPUnit feature tests used to verify core task functionality and user-specific access

---

EDUCATION

BSc Computer Science, 2.1 – University of Ulster Magee

Relevant Modules: Algorithms & Data Structures, Distributed Systems, Cyber Security, Computer Vision, Concurrent & Distributed Systems, Cloud Computing, UX, Object Orientated Programming and Mobile Application.

Report: Analysed student placement application data to evaluate engagement, progression and placement success, identifying key trends and outcomes. Presented findings through clear data visualisations and recommendations aimed at improving student engagement throughout the placement process.

SOFT SKILLS

- Communication.
- Teamwork.
- Problem Solving.
- Leadership.
- Adaptability.

INTERESTS & ACHIEVMENTS

- Deans List (2023 & 2024) 70%+ average.
- Member of North West Golf Club
- Love music to relax.
- Continuous learning through various formats.
